

Anmol Yousaf

Full-Stack Developer

anmolyousaf94@gmail.com | (+92) 322 4712089 | [linkedin.com/in/anmolbehzad](https://www.linkedin.com/in/anmolbehzad)

Full-stack developer with 9 years of experience in Ruby on Rails, Laravel, and AWS. Owner of a US-based LLC (Annetech LLC) providing remote development and DevOps services to clients across the US and UK. Experienced in leading technical teams, architecting cloud infrastructure, and integrating third-party services.

CORE COMPETENCIES

- Technical Leadership & Team Mentorship
- Technical Roadmapping
- Full-Stack Development (Ruby on Rails, Laravel, Elixir)
- API Design & Microservices
- AWS Solutions Architecture & CI/CD Pipeline Development
- Third-Party Integrations (Jira API, Zendesk API, OneDrive/Dropbox Sync)

PROFESSIONAL EXPERIENCE — 9 YEARS

Technical Consultant — Annetech LLC (Self-Employed) | Sep 2022 – Present

- Own and operate a US-based LLC, providing remote contract software development and DevOps services to clients across the US and UK.
- Engage directly with clients on technical strategy, delivery, and ongoing infrastructure support across the following independent, remote engagements:

Full Stack Engineer — [Sachse Construction](#) (Remote) | Nov 2025 – Present

- Transforming the bug management lifecycle into a smoother, more transparent process for end users.
- Developing and delivering new product features.

Full Stack Engineer — [Wild West Pool Supplies](#) (Remote) | Sep 2022 – Present

- Manage all development and server infrastructure as sole developer.
- Successfully launched a new product line, Wild West RV Supplies.

Software Architect — [Wego Health](#) (Acquired by Health Union) (Remote) | Feb 2021 – Aug 2023

- Managed development of multiple products and technical teams for the Patient Leader Network.
- Managed servers on DigitalOcean via Chef.
- Implemented process improvements, reducing server downtime by 20%.

Senior Software Engineer — [GrowthPhysics](#) (Part-time, Remote) | Sep 2021 – May 2022

- Provided part-time senior development support, contributing to architecture design and code reviews.
- Mentored junior developers, fostering a culture of learning and collaboration.

Senior Software Engineer — [EZO](#) | 2014 – 2021

- Led the tech team for AssetSonar, the company's flagship product.
- Built and integrated multiple private clouds, improving data security for enterprise clients.
- Led a team of 10+ engineers on bug fixes and feature development.
- Integrated Jira Service Help Desk with EZOfficeInventory and AssetSonar, plus two Jira add-ons.
- Developed a Zendesk Support app for EZOfficeInventory.
- Integrated OneDrive across all products (EZOfficeInventory, EZRentOut, AssetSonar).
- Trained a team of 5 newly hired employees; recognized with a Best Team certificate.
